Volga-Benko Gambit • The app is updated for iPhone X• New Splash Screen• AutoPlay Disabled Rebuttals• Password Reset Option• Account Renaming• Various Fixes and Enhancements This could be my favorite of the different Chess King apps I collected today (during a gratitude that such apps even exist!) Started from the beginning. I found a location on the screen. It took a second to figure out how to comfortably rewind - then play again - the game, again to the first position shown (where an error had occurred). He looked at the screen and tried to figure out how to refute the error. I have feedback on my choice. I realized that going through ALL available locations should prove to be a wonderful supplement to the tactical practice I was already starting to get from the also fantastic Chess Art app. Unfortunately, my normal chess opponents will probably discover these wonderful apps someday as well. this is a great program that I have been using for a year and it is quite challenging for me to data management to Apple. For more information, see the developer's privacy policy. The developer will be required to provide privacy details when they send the next app update. App Support Privacy Statement Version: 1.3.5 Size: 8.91MB Android Version: 4.1 and Above Price: Free Developer: Chess King Category: Opening Error Board Encyclopedia - Learn to play chess by learning about opening errors and traps that have been discovered over time. The it is designed to study errors in more than 40 openings and contains over 1,250 instructive exercises of varying difficulty from practical games. This course is in the Chess King Learn series (, which is an unprecedented method of chess teaching. In the this includes tactics, strategy, opening, middlegame, and final courses, divided by levels from beginners to experienced players and even professional players. With the help of this course, you can improve your knowledge about chess, learn new tricks and tactical combinations, and consolidate the knowledge acquired in practice. The program acts as a coach that gives tasks to solve and helps solve them if you get stuck. It will give you tips, explanations and also show you a surprising rebuttal of the mistakes you might make. Benefits of the program:☺ high-quality examples, all rechecked for correctness☺ You must enter all key moves, required by the teacher☺ Different levels of complexity of tasks☺ Various objectives, which must be achieved in problems☺ The program gives advice if an error is made☺ For typical wrong moves, rebuttal is shown☺ You can reproduce any location of the activities against the computer☺ Structured Summary☺ The program monitors the change in the player's rating (ELO) during the process Learning☺ test mode with flexible settings☺ Ability to bookmark favorite exercises☺ The application is adapted to the largest screen of a tablet☺ The application does not require an internet connection☺ You can connect the app to a free Chess King account and solve a course from multiple devices on Android, iOS and web at the same timeThe course includes a free part, where you can test the program. The lessons offered in the free version are fully functional. Test the application under real-world conditions before releasing the following arguments:1.
